## DISSERTATION

A post-graduate student of law should be thoroughly introduced to the idea and methods of legal research to better equip themselves, to effectively discharge their responsibilities in the capacity of both academicians and professionals. This course is designed to equip the students with the requirements of legal research in contemporary society.

It is a skill development course, specifically designed for the students of post-graduation, which requires the students to select any research problem of their choice by adopting appropriate research methodology for the topic chosen, conduct the research under the supervision of the Guide allotted to them. After completion of the research, his/her research outcomes should be presented in the approved/ required format.

The performance of the student will be evaluated for 100 marks in which 80 marks shall be for the research skills exhibited in the Research Report submitted to the institution and 20 marks shall be for viva-voce based on dissertation.
