

KARNATAKA STATE LAW UNIVERSITY, HUBBALLI.

STRATEGIC PLAN

The strategic plan of the university is well reflected in the vision, mission and objectives of the University which indeed have been an inspiration for organising various programmes from time to time. The University aims to provide legal education to all sections of the society including the weaker sections. With a view to make teaching, learning, research and extension activities of the university effective and provide a holistic development of the student community and all other stakeholders, various curricular, co-curricular and extracurricular activities are conducted. With a view to implement the strategic plan, the university had conducted three online faculty development programmes in Public Law, Corporate & Commercial Law and Law and Vulnerable. Further, State Level Moot Court Competition in Kannada and National Level Moot Court Competition in International Law were organised even during the pandemic with the objective to enhance the research and presentation skill. This was done through online mode. This has helped to enhance the skills of advocacy among the students and make them realise the values of professional ethics in the practice of law. To add to this, with the primordial objective to introduce the students to the translation skills a Seven Day Translation Programme was organised under the able guidance of very famous legal luminaries, language experts and academicians.

To promote the research abilities of the students and faculty members, the University comes out with KSLU Journal and Student Law Review periodically. To create a self belongingness among the newly joined entrants to the Law University and also to bring in discipline and commitment, the students were properly oriented through online mode.

The University implemented the activities as per the strategic plan.
